Re: **Bryant v. Broadcast Music, Inc.**
 Index Nos. 2821/02 & 5192/00
 Our File No. 3689

Dear Justice O'Rourke:

Pursuant to the Stipulation, which was previously forwarded to the Court, Plaintiff's reply papers will be served and filed by the return date of the motion, January 20, 2006. However, there is one matter we wish to address in the interim

We note in Sunbow's answering papers at page three, footnote four that Ms. Phares indicates that she did not previously receive a copy of David Berman's Declaration dated May 1, 2005. Our records show that that Declaration was included with our letter of August 26, 2005 to the Court and according to our Fax Activity Report (copy enclosed) the complete documentation was faxed to both your Honor and Ms. Phares. In case it was misplaced by Ms. Phares and Ms. Saffer, we enclose another copy of the Berman Declaration.

Respectfully submitted,

Patrick J. Monaghan, Jr.

DECLARATION OF DAVID BERMAN

DAVID BERMAN, hereby declares in accordance with the provisions of California law under penalty of perjury as follows:

1. I have been retained as an expert witness by the plaintiff Anne Bryant in this matter and I've been hired to appear and testify at the trial of this matter.
2. I am an attorney who graduated from Harvard Law School in 1969 and am currently an inactive member of the California Bar.

3. I was the subject of plaintiff's Expert Disclosure previously served in this matter.

4. As indicated in my accompanying CV, between 1969 and 1976 I was an associate and then a partner at Mitchell Silberberg & Knupp a Los Angeles law firm, where I specialized in music law, representing record labels, producers, publishers, managers and artists, including A & M Records, Island Records, Almo/Irving Music, The Doors, The Beach Boys, and the Temptations.

5. From 1976 to 1987, I was Vice President then Senior Vice President of Business Affairs of Warner Brothers Records and involved in negotiating Artist, Producer and Distribution Agreements involving such artists as Rod Stewart, Fleetwood Mac, Prince, and Madonna.

6. From March 1987 to October 1987, I was the President of Capitol Industries, Inc.

7. From October 1987 through 1989, I was the President of Capitol Records and I dealt with such artists as The Beastie Boys, Bonnie Rait, Mc Hammer, and Garth Brooks.

8. From 1990 to 1991, I resumed partnership at Mitchell Silberberg & Knupp specializing in music law.

9. From 1991 through 1998 I was a Senior Executive and General Counsel to Geffen Records and dealt with artists such as Nirvana and Counting Crows.

10. From 1998 through 2001, I was the President of Buena Vista Music Group, the prerecording music and publishing arm of The Walt Disney Company, responsible for four different record labels and a publishing company.

11. Since 2001, I have been engaged in consulting and other matters related to the music industry.

12. Without limiting my areas of expertise, I am fully familiar with music and entertainment industry standards and custom and practice, especially as it relates to publishing interests and writer-publisher income sharing.

MONAGHAN & MONAGHAN

13. I understand from information provided to me by the plaintiff that this case relates to music composed as jingles for an advertising agency Griffin Bacal, Inc and for other music specifically composed for a TV production company Sunbow Productions, Inc.

14. I know of no differences which would apply to jingle music compositions as opposed to other compositions in terms of publishing and royalty interests and income sharing.

15. Among other documents I have reviewed in connection with my service as an expert witness of behalf of the plaintiff are the following:

A. SUNBOW w. KINDER & BRYANT JEM Agreement dated June 1, 1985 (Sunbow 870-0882);

B. SUNBOW w. KINDER & BRYANT My Little Pony and Friends Agreement (Sunbow 883-892); and

C. GRIFFIN BACAL w. KINDER & BRYANT Transformers Agreements (Sunbow 896-902).

WORK FOR HIRE AGREEMENTS

16. It is my understanding that the defendant Sunbow Productions, Inc. has urged that because certain agreements are "work-for-hire agreements," which is a standard in many cases in the industry, that the very fact of an agreement being a "work-for-hire" agreement suggests that the artist or songwriter does not retain continuing interests in publishing income or waives his/her so-called "writer's share".

17. The foregoing is simply not true, as set forth in various treatises which I understand have been submitted to the Court and such a position is contrary to custom and practice in our industry. In the instant case, looking at the JEM Agreements for example, it is clear that Ms. Bryant retained a 50% interest in her publishing when licenses are granted to third parties by Sunbow or its publishing arms which I understand are Wildstar-ASACP or Starwild-BMI.

18. Although the publisher exploits the copyright on behalf of both the publisher and the writer, custom and

MUNAGHAN & MONAGHAN

practice and industry agreements generally provide for a sharing in any income received by the publisher. This is true even in the case of work-for-hire agreements since such work-for-hire agreements are necessary for the publisher to file the copyright under the Copyright Act and be able to exploit the music for the benefit of the publisher and the writer. Any suggestion that the Sunbow JEM Agreements or Transformers Agreements somehow give rise to a relinquishment of Ms. Bryant's rights to continued participation in publishing income is incorrect.

19. My understanding is that Ms. Bryant contends that various DVDs, CDs, VHS movies, and other intellectual properties, including T.V. Shows, contain Ms. Bryant's music and JEM Themes, Transformers Themes, and others and such products are being sold without any compensation to her. I am prepared to testify that, based on my experience and knowledge, Ms. Bryant is entitled to her writer's share of publishing income and royalties with respect to any exploitation of her music as for example where the publisher realizes income from licenses granted to third parties, as for example sync licenses or any other licenses allowing for the use of an intellectual property containing her music. The musical component of that intellectual property is a valuable asset. Although licenses are often not broken down by the music versus the video component, there are methodologies for calculating the value of the music..

THE TERM RECORD INCLUDES OTHER MEDIA

20. Donald Passman, author of "All You Need To Know About The Music Business" (© 2000, Simon & Schuster) said in his book:

"Let's now turn to a real basic: What's a record?

As simple and straightforward as that question sounds, the answer is not what you'd expect. Of course, the term "record" means the devices you're thinking of- compact discs, pre-recorded cassettes, and vinyl discs (R.I.P.). However, in virtually every record agreement made since the 1960's, the contractual definition of record says a record is both an audio-only and an audiovisual device (meaning one with sound and visual images), such as videocassettes and DVD's, which play video as well as

audio material. (This is particularly interesting when you remember that audiovisual devices weren't even invented in the 1960's! Companies anticipated their development, even though no one knew what form they would take.) The definition of records also included (and still does) any other device now or hereafter known that is capable of transmitting sound alone, or sound with visual images. As you'll see later, the inclusion of audiovisual devices in record deals can make life a bit tricky if you're a recording artist and also an actor or an actress in films. Stay tuned' [Passman, Page 87-previously furnished to the Court according to Ms Bryant].

21. I agree with Passman's suggestion that any contract covering income due for records would also cover income from newer technologies such as DVD's; CD's and the like. After all, you can play the music alone on many DVD's and that would be the exact equivalent of a record.

CALCULATING DAMAGES

22. As a lawyer, I know that the Court would seek to fashion an equitable remedy were it to find that plaintiff is entitled to damages and that such may be a daunting task where the exact amount attributable to the music portion of the license is not spelled out.

23. I have also been advised that Sunbow and its successors have licensed various properties to third parties both domestic and foreign which properties include the plaintiff's compositions. One possible approach to equitably calculating the plaintiff's damages in this case might be to apply the statutory mechanical rate which applies to record sales. This does not mean that this is a copyright case - it is merely the use of a formula to determine the value of the musical components of the various licenses issued by Sunbow to third parties.

24. Another possible methodology would be to apply a formula based on a percentage of licensing income realized by Sunbow and its licensees. For example, just with respect to foreign licensees , I understand that former defendant Jules M. Bacal produced a Transaction Binder which is in evidence relating to the sale of Sunbow to Sony showing that for the periods indicated, Sunbow

realized substantial income from those foreign licensees. [See Ex A hereto JB Bates Numbers 0633 0643]. I also understand that the Court was furnished with evidence concerning a domestic license to Rhino Productions and that Sunbow realized substantial income from that license.

25. Other fees include a Home Video licensing fee which could be based upon the number of episodes in which Ms. Bryant's music was used and multiply that number by a per episode fee. In Passman's book, at page 243 he says:

"If the television program is ever released in home video, there's an additional payment of about \$6,500 to \$8,500."

OTHER OBLIGATIONS OF THE PUBLISHER:

26. I wish to make some other points which have relevance to the issues before the Court in terms of the responsibility of the publisher to the writer:

a. The Publisher, here Sunbow or its subsidiaries, Wildstar and/or Starwild submits the registrations regarding performance rights income to BMI and ASCAP.

b. It is the obligation of the Publisher to maintain and protect the performance rights listings which credit the authors and composers.

c. A new arrangement or recorded performance of the composers music should not result in any changes in authorship credits. A new arrangement is not a derivative work and arrangers and producers do not have the right to claim authorship of a pre-existing song.

d. Publishers such as Sunbow cannot arbitrarily assign authorship to arrangers and producers.

e. Arrangers get a separate arranging fee.

f. Producers get compensated according to their payment agreements with the production company.

g. Composers and authors of the original compositions continue to get their royalties even for later arrangements of their compositions. Harold Arlen would have been entitled to writer royalties for every arrangement of

"Somewhere Over The Rainbow" regardless of the hundreds or even thousand later versions and arrangements.

If called to testify, as I expect to be, I would testify to the truth of the above.

Under penalty of perjury, I declare that I have read the foregoing and that the facts stated herein are true to the best of my knowledge and belief.

My facsimile signature on this Declaration may be regarded as an original.

DATED:

5/1/05

DAVID BERMAN
